1	App for task management.	Todoist	Easy to manage assignment deadlines and exam dates. Organise tasks from each class.	She has trouble with syncing data. Not suitable for daily use rather best for office planning. Subscription required, not a free app to use for everyone. Accidentally deletes tasks.	23	Female
2	App that helps her to buy household items for lower cost than they are originally portrayed to be.	Shopmania	Easy to shop high quality products with lowest cost possible on the market. This includes all the sites that provide huge discounts, so makes customers easy to shop.	Sometimes this app doesn't help very much as it shows higher or irregular costs and doesn't give accurate results for some items at every search. Sends too many notifications, flooding our inboxes with their offer options.	22	Female
3	App for all smart devices at home.	Google Home	Best app to connect same vender devices.	Difficult to use. Tends to be slow. Experience is not so good. It has an awful layout.	40	Male
